The 22 - ton Bank Door marks the entrance to the concrete and steel vault 15' x 27' originally intended to house the safety deposit department of a bank. The bank door is equipped with time lock and two combination locks. The four large safes inside are equipped with tear gas and combination locks. This together with \$100,000.00 insurance offers adequate protection.

The connecting rooms together with the large vault, an area of 1,300 square feet occupied entirely by R. GREEN, dealing exclusively in Rare Coins and Coin Collectors supplies.

A WORD OF EXPLANATION

I am sorry to say, we are behind in both orders and correspondence also in the preparation of this list. My wife, Ruth, spent 2 weeks in the hospital and the past 3 weeks at home recuperating. The secretary was away 2 weeks, another girl who has been with us many years was away a few days. I simply write this as a matter of explanation for the delay in answering many letter received during the past 6 weeks. The secretary and the other girl is now back also, some new help and we will get to your correspondence and orders just as soon as possible. Thank you.

CONDITION AND ABBREVIATION USED

- PR. PROOF coins are those coins struck especially for collectors. They have a bright, mirror like surface. The Government charged a premium for these coins at the time of issue. A coin can still be a Proof although it is discolored. If they show scratches or wear they should be classed as E.F. and not UNC.
- UNC. UNCIRCULATED coins are those coins struck for regular circulation, but show no wear, nicks, dents or scratches. Some uncirculated silver coins are dark due to oxidation.
- E.F. & A.U. EXTRA FINE and ALMOST UNCIRCULATED coins show only slight rubbing or very light wear and must retain considerable mint luster.
- V.F. VERY FINE coins are those that show more wear than E.F. and they may not retain any of the mint luster but should not have bad nicks or dents.
- F. FINE coins are those showing considerable wear but all lettering, date and designs plain.
- M/L MINT LUSTER. We use this method of describing a coin that still retains much of its Mint Luster, and especially where space is limited to describe such coins this is also a much needed time saver. Should be a favorite term in years to come.

MINTS AND MINT MARKS

- P The Pennsylvania mint began regular operation in 1893 and has no mint mark except on the composition nickels struck during World War II, better known as war time silver five cent piece. They have a mint mark (P) above the building. All other mints used a letter or letters to signify where the coins were issued.
- C Charlotte, N.C., struck gold coins only. 1838 to 1861.
- CC Carson City, Nev., coined both gold and silver. 1870 to 1893.
- D Dahlonega, Ga., gold coins only, 1838 to 1861.
- D Denver, Colorado. 1906 to date.
- O New Orleans, La. 1838 to 1861, 1879 to 1909.
- S San Francisco. 1854 to date.

SMALL CALIFORNIA GOLD COINS

The genuine coins have denomination spelled "Dollar" or abbreviated "Dol." The souvenirs have only the numeral, or nothing to indicate denomination.
